

west virginia

Connecting West Virginia Through WV.gov

Background

- 49th in the nation – 2007 Brown University eGovernment ratings
- Limited number of online services
- Customer expectations changing ... *“Why can’t I do this online”*
- Insufficient funding resources
- Lengthy internal development schedules
- Utilized legacy technologies
- Numerous inconsistencies between agencies websites

WV.gov Modernization Goals

- Maximize citizen, business and government to government interactions via the web by developing enterprise class web services
- Develop innovative and useful online services that create efficiencies and agency cost savings
- Provide a consistent presentation that is recognizable, secure and operationally efficient
- Develop a solid hosting infrastructure that can be scaled as needed resulting in continual improvement
- Provide a dedicated project team to focus on the initiative 100%

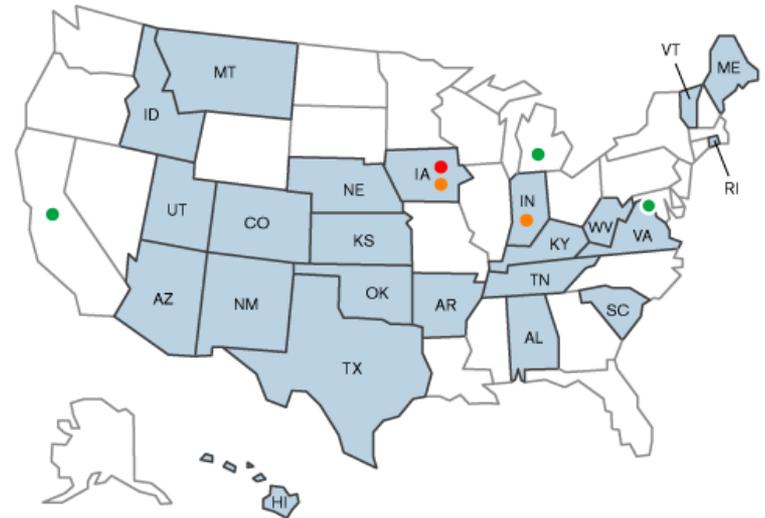

... without spending any tax payer dollars

The Solution

- Develop a benefit-sharing and sustainable *Public-Private Partnership* with a leading private sector company who has the experience and skill sets necessary to modernize the state's web portal, individual agency websites and to develop new interactive online services through a self-funded solution
 - Procured services through a competitively bid RFP which was awarded to NIC Inc. in July 2007
 - NIC established West Virginia Interactive as a wholly owned subsidiary to implement the WV.gov Modernization project
- 

About NIC

- NIC is the leading outsourced manager of government web portals and is currently engaged with 23 states representing more than 3,000 government agencies across the United States that serve more than 97 million people
- NIC's unique *self-funded* solution allows state government to build world-class online services at no upfront cost to taxpayers
- Since 1991, NIC has used technology to streamline and simplify the process of interacting with every level of government
- Developed a library of over 3,900 online applications that help governments deliver valuable services and information to constituents
- Publicly traded company with more than 17 years of experience

Who We Are

We manage, design, build, and enhance the eGovernment portal for the state of West Virginia, www.wv.gov

Facilitate transactions between state and local government entities and their constituents

Operate under a self-funding model whereby no state tax dollars are used

Develop innovative online solutions for state and local government partners

What We Do

Our Mission is to develop successful digital government services and Web sites for agencies across WV government

Offer a flexible funding model to fit government needs

Build and support over 50 Web applications and sites developed to date

Work with over 60 state and local government agencies

The Self-Funding Model

- **Transaction based revenue model** deployed across 21 states based on the assessment of nominal transaction fees applied to a small number of commercially viable services
- The private partner **covers all of the cost** for infrastructure, equipment, software and personnel expenses
- The private partner builds, maintains, supports and markets services at **no cost to agencies**
- High percentage of applications developed have no transaction fee and the vast **majority of citizen services are free**

Expected Outcomes

Government

Internet

Community

- Increased government ***efficiency***
- Improved constituent ***access*** to government information and services
 - Conducting business with the state will become ***easier***
 - Improved economic ***value*** of the state

Key Accomplishments

- Dedicated portal team of 11 employees established and based in Charleston, West Virginia
- Multi-million dollar portal infrastructure successfully launched
 - Includes primary and disaster recovery facilities
- Redesigned and deployed the new WV.gov portal which included the nations first Education portal
 - Nationally recognized by the Centers for Digital Government and Education
- First state portal launched using Microsoft's latest enterprise content management system, SharePoint 2007
 - CMS services are extended to state and local government agencies to reduce website costs and simplify content changes
- Assisted agencies with the development of 26 online applications and 27 website redesigns to date
 - Over 30 new projects in queue
- State annual cost savings of \$2.5 - \$3 million

Economic Recovery Funds Benefit West Virginia

Welcome to recovery.wv.gov, a Web site that enables West Virginians to follow the American Recovery and Reinvestment Act's direct impact on our state, while also tracking the overall spending process of our stimulus funds.

We have three main priorities when it comes to the Recovery Act, which include being responsible and transparent with the taxpayers' money, meeting the requirements of the legislation and creating jobs. In the coming days and weeks, you will directly see our state's stimulus dollars at work, and I encourage you to visit this Web site often, because it is updated frequently.

Governor Joe Manchin

Sign up to hear about DEP activities and permits.

Seventeen individual applicants have been approved for amounts totaling \$273,290 in the Department of Environmental Protection's Covered Electronic Devices (CED) Recycling Grant Program, Cabinet Secretary Randy Huffman announced.

Established in 2008 under the DEP's Rehabilitation Environmental Action Plan (REAP), the CED Program ensures that manufacturers register their brands with the state. The program allows counties and municipalities to apply for CED grants to conduct electronic collection events.

The goals of the program are to establish a registration process for manufacturers of covered electronic devices, to determine if manufacturers have adopted or implemented a free take-back/recycling program for their products and to award recycling grants to counties and municipalities for recycling or other programs that divert covered electronic devices from the waste stream.

Following is a list of recipients of CED grants:

Berkeley County Solid Waste Authority	\$17,800.00
Brooke County Solid Waste Authority	\$20,000.00
Greenbrier County Solid Waste Authority	\$20,000.00
Hancock County Commission	\$14,000.00
Kanawha County Solid Waste Authority	\$22,000.00
Kingwood, City of	\$9,391.00
Lewisburg, City of	\$6,000.00
McDowell County Solid Waste Authority	\$13,030.00
Morgan County Solid Waste Authority	\$20,000.00
Ohio County Solid Waste Authority	\$16,800.00
Pocahontas County Solid Waste Authority	\$17,134.40
Preston County Commission	\$7,159.00
Putnam County Solid Waste Authority	\$18,000.00
Raleigh County Solid Waste Authority	\$26,676.50
Ritchie County Solid Waste Authority	\$16,800.00
Upshur County Solid Waste Authority	\$20,000.00
Wood County Solid Waste Authority	\$8,500.00

Secretary of State Betty Ireland Opens Membership in the WV Voter Hall of Fame

Secretary of State Betty Ireland announced today that starting on West Virginia Day, June 20th, membership in the West Virginia Voter Hall of Fame will be open to all registered voters who have voted for 50 consecutive years. "We have had such a tremendous response, and inducted truly outstanding citizens into the Inaugural Class of the West Virginia Voter Hall of Fame, so we felt now was the time to make membership available to all voting citizens in our state who have voted for 50

West Virginia Secretary of State Natalie E. Tennant

Welcome

Welcome to the West Virginia Secretary of State's office. As I proudly serve the people of West Virginia, I strive to bring open and engaging government to this office. I hope this site provides you the most current information on election results and laws, campaign finance reports, business and charity filings and other filings such as emergency rules that fall under the duties of the Secretary of State. Thank you for allowing us to serve you.

Natalie
